

BLUE WATER BRIDGE

A one way trip over the bridge is \$1.75 U.S. Tip, have the correct change ready and you can use the automatic toll booths saving you time.

You need I.D. other than a drivers license to enter each country. A passport or other I.D. proving citizenship is needed. Typically entering the U.S. is more of an ordeal than entering Canada. If you are at a Port Huron Hotel you should allow one hour to cross the bridge to SYC. If bridge traffic is light, which is typical for a Saturday or Sunday morning it should only take you thirty minutes.

The Blue Water Bridge has its own web site www.bwba.org that has useful information including a web cam and real time traffic conditions.
